ROBUST MONOLITH WITH LARGE CAPACITY, CLEAN, FUNCTIONAL AND DESIGNED TO BE USEFUL WITHOUT PROMINENCE

- 1 | Large capacity
- 2 | Clean and functional
- 3 | Easy maintenance

Humo ashtray

Outdoor ashtray formed by a tubular base and a detachable head which includes the ashtray container itself, all in stainless steel. Clean, smoke and odour free, and easy to maintain.

Materials and finishes

AISI 304* stainless steel, polished finish, and a fixing base made from galvanized steel.

* When AISI 316 stainless steel is required, please ask for prices and delivery dates.

Maintenance

Does not require maintenance, except for periodic cleaning of the ashtray container, which is released from the structure using an Allen-type hexagonal key.

Installation

The element is delivered assembled. The anchor bolts and the screws to fix it to the paving are included. The zinc-plated steel base is fixed to the paving using anchor bolts and, subsequently, the tubular structure is fastened to the base with two screws. The assembly instructions are enclosed with the ashtray.

Weight

10.2 kg.

Model

Dimensions in cm.
