

Designed by the Santa & Cole team, which is formed by the people who have historically worked together with Santa & Cole's Technical Department, and captained by successive editors BC1, BC2 and BC3 wall lamps reflect the editor's core values: sturdy construction, sober aesthetics and functional quality.

This versatile series of wall lamps is adaptable to the needs of any space as it features a variety of finishes and well-sized lampshades available in three styles: ribbon, linen or stitched parchment.

The BC1 wall lamp has a pivoting metal consisting of an angled tube that feeds the cable downwards to the nearest socket. The arm has a beech handle at the bottom end to adjust the shade according to the light intensity needed.

The BC2 wall lamp has a fixed arm with a straight transition from the vertical arm which is completed with a beech wood finial, joining it to the wall and hiding the socket.

The BC3 wall lamp has a pivoting metal arm consisting of an angled tube that fits into a metal bracket, hiding the wall socket.

General description:

Structure satin nickel and beech wood handle.

BC1: Rotating arm with plug. Dimmer included.

BC2: Rotating arm.

Shade available in 7 finishes: Stitched beige parchment; natural, red-amber or black ribbon and tile, mustard or green Raw Color ribbon.

Approximate weight (unpacked):

0,3 Kg / 0.7 lb
