Cesta Metálica

IP 20

A duel between fragility and strength: the Cesta Metálica is the updated version of the Cesta, with its own distinct features. It comes with or without a smooth leather handle; a stark contrast to the stern, rigid structure, that gently holds an opal globe with out neck.

Miguel Milá mastered the strength of steel by placing at its centre a delicate opal silhouette, and a touch of soft leather. A seamless expression of strength and emotion, combined with everyday practicality.
