Shiro, which translates as “white” in Japanese, carries deep significance in the country’s philosophical tradition, evoking emptiness, honor, purity, and calm. This outdoor lamp draws a dialogue between architecture and nature, integrating naturally into the landscape. Its rational, refined structure does not enclose but filters light through the slats arranged in a cubic form. Available in three sizes, it can be fixed in place or stand freely.
Shiro represents a void brimming with potential, an expression of energy contained. A spiritual openness that invites contemplation and discovery. The result is a soft, grazing illumination that creates a tranquil atmosphere, balancing the inhabited outdoor space with the open natural world.
