

ART EDITIONS

Museum Neoseries

SANTA & COLE

Museum Neoseries are facsimile editions of great masterpieces, created with cutting-edge technology in collaboration with institutions like the Museo Nacional Thyssen-Bornemisza or the MNAC. They faithfully reproduce the volume, texture, and color of the original work, offering an aesthetic experience that goes beyond the museum. Each piece is produced on demand and individually numbered, with progressive and accessible pricing. An art edition that democratizes beauty and makes it possible to live with art beyond museum walls.
